63 The financial people suck, they lost my paperwork after submitting it 3 times it got too much and I got too far into debt I'm highly disappointed in the school.

64

65

66

67 This semester the costs of college were overwhelming. Last year, working throughout the school year took a great toll on my academics. I also lost interest in my current major, elementary education. Taking a semester off will help me to reevaluate me

89 URI is a great school but I wanted to be with some of my close friends from home who are attending UMass

90

91

92

93 URI is a good school, but I need to move out of RI.

94

95

96 I plan to work during this semester and return for summer classes, and then possibly transfer to another school in the fall semester.

97

98

99 I decided to go with Law enforcement instead. Nothing against the University, URI was very good to me and I truly enjoyed it. Just did not offer my major

103

104 Tuition was far to expensive for the classes taken.

112 I believe I should have recieved more financial aid, considering I had 13 kids grow up in my household and my parents can not afford to give me a dime for college. Now I am forced to leave a place that I enjoy and would love to stay.

124 I love URI and wish you guys had a fire science program. That program coupled with the reputation of the Kingston Fire Department would make this school an almost unquestionable path for aspiring firefighters such as myself as well as other professions

173 I would have really loved to stay, but my financial aid processed late. I had to do everything on my own and because I had no idea what I was doing (no help from parents) everything just ended up getting to stressful.
